DESCRIPTION

- 7a. Architectural style: Queen Anne Cottage-
- 7b. Briefly describe the present *physical appearance* of the site or structure and describe any major alterations from its original condition:

It appears that this building was originally a small L shaped cottage with a pitched roof and has been enlarged with a two story addition in the rear. Constructed of wood, the front facade has a slanted bay under the gable. The gable end is filled with square cut shingles while the remainder of the facade is covered with fishscale shingles. The typical set back porch and entry has been extended flush with the projecting wing and enclosed. The windows are all of different styles and from several eras all appear to have wood sash or frames. The remaining facades are sheathed in board and batten which may be the most original treatment of sheathing.
